Problema 3: Opção G

Lista de arestas ordenadas (do menor para o maior):

 $L = \{(F,N), (E,O), (N,M), (C,D), (F,G), (B,A), (M,L), (H,I), (A,G), (M,D), (F,B), (C,B), (I,A), (N,L), (M,J), (O,N), (O,C), (E,D), (H,G), (F,E), (I,K), (A,K), (L,K), (J,I), (D,L), (C,H), (J,K)\}$

Logo, para montar a AGM temos:

 $L = \{(F,N), (E,O), (N,M), (C,D), (F,G), (B,A), (M,L), (H,I), (A,G), (M,D), (F,B), (C,B), (I,A), (N,L), (M,J), (O,N), (O,C), (E,D), (H,G), (F,E), (I,K), (A,K), (L,K), (J,I), (D,L), (C,H), (J,K)\}$

OBS: De azul, temos as arestas utilizadas, de vermelho as não utilizadas

Custo total = 76.
